Lisboa 2019

3rd Portugal Edition

Saturday 16th March 2019

- Objective:** Designing innovative concepts for bathroom-related products.
- Topic:** The specific brief for the object to be designed will be announced on **Saturday 16th March 2019**
- Context:** **Sustainability, personal wellbeing, accessibility and the lack of affordable housing form part of the everyday lives** of the general public and, of course, this applies equally to their homes and bathrooms. However, the products available in this area do not always respond to these concerns.

Our aim is to involve the community of young designers in the research for original and innovative yet simple solutions, which improve user's interaction with the bathroom products.

Another goal is to offer a platform to promote, facilitate and concentrate creativity in a display of fast and intensive work focused on bathrooms, an area that is traditionally not the subject of a great deal of innovation.
